

EMMANUEL JOSHUA A. LEMON

WEB DEVELOPER

PROFILE

I'm a skilled Web Developer specializing in React JS and Laravel, dedicated to crafting visually appealing and impactful web solutions. With a passion for creating compelling visual identities, I help companies worldwide enhance their online presence. Scroll down to explore my expertise and learn more about how I can elevate your projects.

WORK EXPERIENCE

- **South AsiaLink Finance Corporation** Link -> <https://safc.com.ph/>
IT Application Developer Supervisor August 2024 - Present
 - Built the frontend of the LOS using React, creating dynamic and interactive user interfaces that improve user experience.
 - Designed and implemented RESTful API endpoints using Express.js to handle CRUD operations on users and other resources within the Loan Origination System (LOS).
 - Used Prisma ORM to handle complex database interactions, ensuring data integrity and security.
- **All One Hub** Link -> <https://allone.ph/>
Backend Developer Feb 2024 - August 2024
 - Create RESTful API endpoints using Laravel's routing and controllers for CRUD operations on users and resources
 - Utilize Eloquent ORM to handle database interactions and ensure proper data validation and security measures are in place.
 - Monitor API performance, fix any issues, and optimize the code and database queries based on testing results and user feedback.
- **Outsoar PH** Link -> <https://outsoar.ph>
Junior Web Developer April 2023 - Feb 2024
 - Work on enhancing internal tools and systems, including developing new features and fixing bugs to improve overall efficiency.
 - Integrate front-end components with back-end services, ensuring seamless data flow and functionality across applications.
 - Perform testing and debugging of web applications to identify and resolve issues, ensuring a smooth and reliable user experience.
- **Exlink (Part-Time)** Link -> exlink.com
Junior Front End Web Developer April 2023 - Nov 2023
 - Build responsive and dynamic user interfaces for the Exlink ticketing system using Svelte's component-based architecture.
 - Implement Svelte's reactive features and optimize components to enhance performance and reduce load times for a smooth user experience.
 - Work closely with backend developers and designers to integrate functionalities and ensure the frontend meets project requirements and design standards.

CERTIFICATE & AWARDS

- **Programmer Of The Year**
 - On August 16, amidst my talented colleagues, I was proudly awarded the esteemed title of Programmer of the Year on our campus. This recognition celebrates my relentless dedication and exceptional skills in programming, marking a significant milestone in my journey.August 16 2023
- **Outsoar Completion**
 - During my OJT at Outsoar, I gained a solid programming foundation. Ending my OJT on June 9, Outsoar promptly hired me as their employee, a testament to the skills and experience I acquired during my training.June 09 2023
- **Web Design Champion**
 - During IT Week on June 1-2, I won the Web Design Champion title. It shows I'm good at making cool websites, making me feel proud and happy about my work.June 1-2 2022
