

EMMANUEL JOSHUA A. LEMON

Full-Stack Developer | React · Next.js · C# · Laravel

+63 981 196 2279 | emmanuellemon111200@gmail.com | San Carlos City, Pangasinan, Philippines | <https://lemonprofilev2.vercel.app/>

PROFESSIONAL SUMMARY

Full-stack developer with 4+ years of experience building and shipping production web applications across fintech, logistics, and internal enterprise tooling. Currently Senior Full-Stack Developer at a nationwide finance corporation, where I lead delivery of five internal platforms — loan origination, underwriting, employee management, leads management, and ticketing — built on a Next.js front end and a C# back end. Also work across React, Laravel, PHP, and Node.js, with hands-on Docker, Nginx, and Jenkins experience and a focus on clean RESTful API design, reliable data layers, and shipping work that holds up in production.

TECHNICAL SKILLS

Front End	React JS, Next.js, Svelte, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, responsive UI
Back End	C# / .NET, Laravel, PHP, Node.js, Express.js, RESTful API design, CRUD architecture, authentication
Data	MySQL, Prisma ORM, Eloquent ORM, schema design, query optimization, data validation
DevOps & Tools	Docker, Nginx, Jenkins, CI/CD pipelines, Git, version control workflows, deployment & server configuration
Leadership	Team supervision, code review, developer mentoring, requirements gathering, stakeholder coordination

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer

August 2024 – Present

South AsiaLink Finance Corporation · <https://safc.com.ph/>

- Lead delivery of five internal platforms — Loan Origination, Underwriting, Employee Management, Leads Management, and Ticketing — from requirements through deployment.
- Built the Loan Origination and Underwriting systems in React, covering borrower onboarding and the review workflows that turn credit policy into structured assessment queues.
- Delivered the Employee Management System (records, roles, permissions), Leads Management System (capture, assignment, pipeline tracking), and an internal Ticketing System for issue routing.
- Designed RESTful APIs in Express.js and modeled complex relational data with Prisma ORM, enforcing data integrity, validation, and access control.
- Supervise developers, review code, and coordinate release priorities with business stakeholders.

Backend Developer

February 2024 – August 2024

All One Hub · <https://allone.ph/>

- Built RESTful API endpoints with Laravel routing and controllers for CRUD operations across users and platform resources.
- Handled database interactions through Eloquent ORM with validation and security on every endpoint, optimizing PHP logic and MySQL queries from production monitoring.

Junior Web Developer

April 2023 – February 2024

Outsoar PH · <https://outsoar.ph>

- Shipped features and bug fixes for internal tools, and integrated front-end components with back-end services for seamless data flow.
- Tested and debugged web applications, identifying and resolving issues before they reached end users.

Junior Front End Web Developer (Part-Time)

April 2023 – November 2023

Exlink · exlink.com

- Built responsive, dynamic interfaces for the Exlink ticketing system using Svelte's component-based architecture.
- Applied Svelte's reactive features and optimized components to improve rendering performance and reduce load times.

EDUCATION

Bachelor of Science in Information Technology

2019 – 2023

Pangasinan State University – San Carlos Campus

Speaker Eugenio Perez National Agricultural School — Graduated With Honors

2013 – 2019

CERTIFICATIONS & AWARDS

Programmer of the Year — Pangasinan State University, San Carlos Campus

August 2023

Web Design Champion, IT Week — first place in campus web design competition

June 2022

On-the-Job Training Completion — Outsoar PH; hired as a developer upon completion

June 2023
